Lutin	Algorithme
 <p>The screenshot shows a software interface for creating a costume. On the left, there is a vertical list of six house icons, each labeled 'house' followed by a number (100, 2, 3, 4, 5, 6) and dimensions (150x153). The first icon, 'house100', is highlighted with a blue border and labeled 'Volet ouvert'. The last icon, 'house6', is labeled 'Volet fermé'. The central workspace shows a house icon with a red roof. At the bottom, there is a color palette with various color swatches and a brush tool. The interface also includes buttons for 'Effacer' and 'Ajouter'.</p>
